Projects by William F. Gilreath

My endeavors in technical projects, essays and advocacy…and what not… 😜

ZeptoN Programming Language:

I have uploaded ZeptoN, the transpiler and code editor to GitHub, and am writing a series of articles on HackerNoon about ZeptoN.

- Github Repo: https://github.com/wgilreath/Zeptor

- Article 1: https://hackernoon.com/what-the-do-while-is-zepton

- Article 2: https://hackernoon.com/what-the-do-while-is-zepton-part-ii-getting-started-what-you-need

Autism and Neurodiversity:

The essays I wrote about being autistic are on my Medium and Substack site:

- https://medium.com/@will.f.gilreath

- https://williamgilreath.substack.com/

My most recent ebook on Smashwords about neurodiverse interview accommodations…

- https://www.smashwords.com/books/view/1139587
